How Do I Prepare for a Personal Reading?

A Reading with REFLECTION is like chatting with a dear old friend who knows you very well, and has no judgments. They provide a gentle and comforting energy, and also have a keen sense of humor. Although they do not "laugh", they have a way of bringing a smile to your lips. This sets up a relaxed atmosphere. If this is your first Reading, Steve explains the process of the trance state before the session. Steve has been present at thousands of readings, and can deal with any sensitive issue or situation. He uses his own intuition to perceive any difficulties of comprehension you may have during the session and provides as much clarification as you require. He will also offer suggestions and clarification after the session.

Prepare 20 – 25 questions in the order of your priority to ensure that your most important issues are dealt with first. Giving as much details that you are aware of, i.e., name, location and approx. age of those not present. This will enable REFLECTION to tune into the specific individual in case others hold the same name. Preparing the queries in advance allows you to pinpoint your real concerns and is an important part of the process.

Who is DONNA KINNIBURGH?

DONNA is one of North America's leading deep trance mediums. She has worked in the personal development profession since 1976 and in 1982 began channelling a Spiritual source called **REFLECTION**.

How Did Donna Begin?

While testing an in-depth meditation designed by Steve to be presented at the next intuitive development course she slipped into an altered state and began to speak in a strange voice. While Donna slept, Steve communicated with **REFLECTION** who advised him of their mandate and purpose.

Donna awoke approximately 45 minutes later, with a time and memory loss. She was astonished to learn that a grouping of Spiritual guides had spoken through her.. Since the intention's of the Kinniburgh's was to fine-tune a meditation they were amazed and honored to meet this Spiritual Source of Wisdom. Donna, who had always been in the administrative side of the union, was surprised to find herself in the role of a medium.

The Kinniburgh's went through the process of deep meditation once more and to their delight **REFLECTION** came through. Since the early 80's they have made this invaluable source of wisdom available for personal or public readings.

RAINBOW LADY, the trigger phrase that Steve uses that inspires the Source to speak, is the title of a song he wrote for Donna before she became a Deep Trance Medium based on the colours of her aura.

What is REFLECTION'S Purpose?

Their purpose is to provide you with information, from another point of view, to *assist* you in making effective choices and improve the quality of your life. Reflection states that the process of *re-learning* the physical, through Donna, also assists them in their own evolution. **REFLECTION'S** mission is to help you to understand your own potential, by providing *personalized techniques* that will empower you to help yourself.

Where does this information come from?

REFLECTION, in addition to their own grouping of spiritual entities, utilizes the sub-conscious aspects of both Donna and her Director/husband Steve, as well as the sub-conscious levels and spiritual guides of all participants

What can I ask in a Personal Reading?

Questions can be on just about any personal concern and topic you wish to investigate. The questions may also be regarding others in relationship to you, such as a family member, a lover, and close friends. In answering your questions, **REFLECTION** *will NOT* violate your free will, and/or the free will of others. In this way, information will only be given with the subconscious agreement of all individuals.
